### Directional Prepositions: Beyond & Toward

Every sentence has to have a subject (a person or thing) and a verb (what that person or thing does.) But a really good sentence tells more than just a simple subject and verb. Other kinds of words help make the sentence more exciting. A **preposition** can tell us more about **where** the subject is, and **when** the subject is doing something.

Two prepositions that tell **where** are **beyond** and **toward**. Use **beyond** to show that one thing or person is on the far side of than another. For example:

*The ball kept on rolling until it was **beyond** the trees.*

Use **toward** to show that one person or thing is in the direction of someone or something else. For example:

*The ball rolled **toward** the little boy.*

**Read the sentences below. Complete each sentence by adding either *beyond* or *toward* in the blank.**
